Andy, this is the most recent draft that I've seen. Rick emailed this last Friday (4/13).

Subject: GenX sampling Round 2 draft letter

Attached is the draft letter we plan to send to Chemours regarding our request for additional GenX sampling in drinking water. This version incorporates comments from Region 5's program and ORC.

Andy, given that the ice was broken with the first request back in January and that we are only making a request for more follow-up sampling, which Chemours verbally did not disagree with, do you think this needs to go through OGC like the first letter did before we send it out. We are not citing any legal authorities, this is just an ask which we believe Chemours willingly will agree with.

I notified OGWDW of our planned next steps.

Joan, I'm sure whoever you work with in HQ will want to see it. It is probably worth holding off sending until we know if more people want to tweak it.

We need to get the letter out early next week so we can ensure Chemours can get the sampling done in May.

Thanks,

Rick
